

MAUDIE, 62

Dance teacher, Grandmother

“Life is wonderful.”

“For years I had so much pain in both of my big toes and had to stop taking part in activities that I loved to do so much and was walking on the sides of my feet.

When I first met with Dr. Glazebrook he said he would have me dancing again and I’m so happy to say that after receiving my CARTIVA[®] implant in my big toe **I’m back teaching my dancing, wearing my cowboy boots and doing what I love.**

I’m 62 years old and so blessed to be a grandmother and now I can run and play with my grandchildren, skip, climb the ladder and slide down the slide with them, life is wonderful.”

The results reported by this patient may not be typical and cannot be predictive of other patient outcomes. Individual results and activity levels after surgery vary and depend on many factors including age, weight, severity of disease, and prior activity level. Visit Cartiva.net for more information.
